

**COVENANT HEALTH**  
*Our Name is Our Promise*

September 11, 2017

**Lisa Stephenson, MSN, RN-BC** has joined Covenant Health as our Chief Nursing Informatics Officer. In this role, she will be working closely with Patient Care Services and Medical Staff leadership to coordinate and initiate the transformation of care processes and outcomes within nursing and clinical ancillary services.

Lisa brings to this position extensive experience in clinical information oversight for healthcare systems. Most recently, she served as Clinical Informatics Director for Centura Health in Centennial (CO), a position which included responsibility for the implementation of the Epic EHR throughout 16 acute care facilities and associated ambulatory, long term care and home care organizations.

In addition to her expertise in clinical information management, Lisa is a Registered Nurse with practical experience as a nurse manager, as a registered nurse in an emergency department and on a pediatric medical surgical unit, and as a case manager for a home-based hospice.

Lisa earned her Master of Science degree in Nursing Leadership and Management from Walden University and is a Six Sigma Green Belt. In 2015, she was a presenter at the Nursing Informatic Forum for the International HIMSS conference and in 2016, was a presenter for the Epic UGM conference.
